CAREER OBJECTIVE

Motivated B.Sc. Computer Science with Artificial Intelligence student with a strong foundation in Python, Machine Learning, data analysis, and problem-solving. Seeking an opportunity to apply technical knowledge, contribute to AI-driven projects, and develop practical industry experience while continuously improving technical and professional skills.

EDUCATION

S.I.V.E.T College, Chennai 2024 – 2027

Bachelor of Science – Computer Science with Artificial Intelligence (B.Sc CS AI)

Currently studying in 3rd Year | CGPA: 8.3 | Developing strong foundations in programming, AI, and data science through coursework and hands-on academic projects.

Madras Seva Sadan Higher Secondary School, Chennai 2022 – 2024

Higher Secondary Certificate (HSC) – Computer Science Stream

Secured 60.33% | Completed core subjects in Computer Science, Mathematics, and Physics, establishing a solid academic base for higher studies.

CERTIFICATIONS

• Naan Mudhalvan – Front End Development Course | Government of Tamil Nadu initiative covering HTML, CSS, JavaScript, and responsive web design fundamentals.

• IBM – Generative AI Course | Covered fundamentals of large language models, prompt engineering, and practical applications of generative AI technologies.

• IBM – Data Analytics Course | Hands-on experience in data analysis, visualization, and interpretation using industry-relevant tools and methodologies.

• Oracle – Front End Development Certification | Completed training in modern front-end development practices and web technologies.

• IBM Developer Skills Network – Deep Learning Analytics | Issued by Star Systems (India) Private Limited, September 30, 2026.

• GENCODARE'26 – Certificate of Participation | 24-Hour State-Level Hackathon, Agni College of Technology, September 25–26, 2026.

EXPERIENCE

• Approtech R&D Solutions Pvt. Ltd. – AI Developer Intern | May 2026 – June 2026

PROJECT

Heart Disease Prediction Using Machine Learning

Developed a predictive model to identify the risk of heart disease using patient health data and classification algorithms.

FIFA World Cup Winner Prediction

Built a machine learning model to predict FIFA World Cup winners using historical match statistics and team performance data.

Loan Approval Prediction

Developed a prediction system to determine loan approval status based on applicant financial and demographic information using machine learning techniques.

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Jupyter Notebook.

SKILLS

Professional Skills

• Programming Languages: Python, Java, Prolog

• Data Analysis & Visualization: Pandas, NumPy, Matplotlib

• Web Technologies: HTML, CSS, Javascript

• Tools & Platforms: PowerPoint, GitHub, IBM watsonx, Vercel, Supabace

• Machine Learning: Scikit-learn

Personal Skills

• Leadership

• Team Collaboration

- Communication Skills
- Problem Solving

LANGUAGES

- Tamil
- English
